## Education

---

**Associate Degree:** Computer Science 02/2017  
**Broward College** - Fort Lauderdale, FL

**High School Diploma** 05/2013  
**William H. Turner Technical Arts High School** - Miami, FL

## Work History

---

**Front End Web Developer** 04/2022 to Current  
**MWI** – Deerfield Beach, FL

- Transformed completely static HTML, CSS, Javascript.
- Adhered to SEO best practices while designing sites.
- Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility.
- Coded websites using HTML, CSS, JavaScript, and jQuery languages.
- Developed user-oriented visuals and features using front-end languages to increase site traffic.

## Experience

---

**Superhero Generator Application** - Engineered an engaging web-based superhero generator using HTML, CSS, and JavaScript - Delivers instant random superhero profiles at the click of a button - Includes search engine and API integration. Users can search diverse superhero attributes and statistics, enhancing user interaction and enjoyment

**E-Commerce App** - Designed an eCommerce library book website, seamlessly combining HTML, CSS, and JavaScript to create an intuitive user interface and interactive browsing experience. - Created visually appealing and responsive design, optimizing the website for various devices and screen sizes while maintaining consistent branding and user experience

**Any Movie Generator App** - Developed a dynamic movie generator web application using HTML, CSS, and JavaScript, allowing users to effortlessly access movie suggestions. - Implemented advanced JavaScript functionalities to enable two key features: generating a random movie selection and offering instant search results based on user-input movie names

**Portfolio Website** build made using HTML, CSS, and Javascript - Has links to my projects and the source code for each project.

**(All projects are open-source code that can be found on my GitHub)**
